

Home Care

Home Care Purchased Services: Line item: 9110-1630

This line item is for the basic operation of the elder home care program. It will support funding for:

- Agencies who provide and set up home care services,
- health aides,
- home health and respite services,
- geriatric mental health services,
- and other services provided to the elderly for long term care in the least restrictive setting.

The Governor's budget proposal slashes funding by \$4.9 million. We know this cut will cause people to be put on a waiting list for home care which could lead many to unnecessary and more costly premature placements in institutions.

Nearly 3,000 Massachusetts Seniors were waiting for Home Care Services in 2010.

Stop The Cuts, Invest In Our Communities.

Fund Home Care, Save Long Term Care Dollars.
